under these rules : 378
4. A Summary Statement on progress
made by municipal authorities in
respect of
implementation of **Schedule III** : Attached as **Annexure-I**
5. A Summary Statement on progress
made by municipal authorities in
respect of
implementation of **Schedule IV** : There is no Schedule IV in Rule. However
the progress made is as elaborated in
Annexure I.

Date: 26/07/2019

Place : Bhopal

Member Secretary
State Pollution Control Board

Annexure - I

Construction & Demolition Waste (2018-2019)

Construction and Demolition Waste Generated (TPD)	C&D Waste Collected	C&D Waste Processed	Utilization of Processed C&D Waste
655 TPD	655 TPD	336 TPD	100%

C&D Waste Processing Plant (operational / under construction / proposed / non-operational)

Sno.	Name of Town / City	Capacity (TPD)	
1	Indore Municipal Corporation	100 TPD	Operational
2	Ujjain Municipal Corporation	100 TPD	Under construction
3	Bhopal Municipal Corporation	100 TPD	Proposed
4	Jabalpur Municipal Corporation	50 TPD	Under construction

Strategy adopted by ULBs for collection and processing of C&D Waste

The State is in process of drafting Construction and Demolition Waste Processing Policy. Once finalized, the State would ensure that all the ULBs in the State have the required infrastructure to manage C&D Waste from collection to disposal.

The waste hierarchy for C&D Waste can be similar to the waste hierarchy of Solid Waste (Solid Waste Management Rules, 2016 – Rule 3). The waste hierarchy would be prioritized and managed in the following order – reduction, reuse, recycling, recovery and disposal, with reduction and reuse being the most preferred option and disposal at the landfill being the least.

The State aims to move towards 3R (Reduce-Reuse-Recycle) and the ULBs need to ensure that Construction and Demolition Waste needs to be utilized to the maximum level and only inert, which is not of any use, needs to be sent to the landfill.

State's plan for big cities

The State plans to set up C&D Waste Processing Plants in big cities (>10 lakh of population) that generate high amount of C&D waste. Currently, Indore Municipal Corporation has functional C&D Waste Processing Plant on PPP basis with current capacity of 100 TPD. In addition, C&D Waste Processing Plants are under construction in Ujjain Municipal Corporation and in Jabalpur Municipal Corporation. Bhopal Municipal Corporation has also proposed setting up of C&D Waste Processing Plant.

State's action plan for smaller ULBs:

The State has instructed all the ULBs to establish mechanism for collection, processing and disposal of C&D waste as follows:

1. The State has issued instructions to ULBs to set up designated Collection Centers for collecting C&D waste
2. The C&D waste should be collected from the premises of non-bulk waste generators through mobile collection units and from bulk generators through designated collection points
3. ULBs are advised to involve private operators, if required, for collection of C&D waste
4. ULBs are also instructed to fix charges for C&D waste collection
5. Segregated C&D Raw Waste is to be used in approved construction activities in nonstructural applications such as lower layers of road pavements, inner colony roads, filling of plinth and basement, etc.

As per Swachh Bharat Mission (Urban) Portal, 224 ULBs have started treating C&D waste in their ULBs through various means. Remaining ULBs are also in processing of establishing mechanism for C&D Waste Management.
